

Babysitting Bootcamp

Instructor: Diane Rokuskie

Babysitting has become a serious earning opportunity for teenagers. Parents now expect the young men and women they hire to be prepared, organized, knowledgeable and confident. This means they need to know how to handle themselves when the unexpected arises as well as have an understanding of the often unspoken professional, ethical, and business side of babysitting. Let's not forget the need to have a basic grasp of child development along with a "bag of tricks" to properly entertain and nurture the children in their care. Join us for this important week of camp as we learn all the skills needed to be a prepared and successful babysitter in a hands-on, fun and sharing environment. American Red Cross CPR Certification provided.
